To Whom It May Concern:

I am pleased to write this letter of support for Albert Beckford Jones.

Mr. Jones was employed by the U.S. Civilian Research and Development Foundation from February 25, 2008 through January 1, 2010. He served as a Senior Advisor to me in my capacity as CRDF's President/CEO.

As Senior Advisor, Mr. Jones' overall responsibility was supporting me and the organization in identifying and pursuing new business opportunities. More specifically, his duties included discovering and conducting due diligence on new business opportunities; collaborating with senior CRDF staff in the early stages of new business development; traveling overseas for business development, often with me and with CRDF's Board members; and contributing to CRDF strategic planning.

Most of Mr. Jones' activities were focused in the Middle East and North Africa region, particularly with the Gulf countries. In that regard, Mr. Jones conducted 5 business development missions to the region and identified 50 business opportunities for CRDF to explore...

Sincerely,

Cathleen A. Campbell
President and Chief Executive Officer
